Isuzu NextGen Plus 10W-40 Engine Oil adheres to the latest E8/E11 ACEA specification and approval process. Using a carefully chosen base stock formulation and premium additives that meet the demands of Euro 5 & 6 engine requirements, it has been engineered to reduce oxidation and assist with piston cleanliness, decreasing soot and carbon build-up. Recommended for use in Isuzu Trucks and has wider appeal across a range of other commercial vehicles including those with Exhaust Gas Recirculation (EGR), Diesel Oxidation Catalyst (DOC) systems and Diesel Particulate Filter (DPF) exhaust after-treatment systems, making it a staple for any automotive workshop.

ISUZU SERVICE AGREEMENTS

Zero-stress servicing. Brought to you by Isuzu.

No business wants big, unexpected bills. But with an Isuzu service agreement, you can flatten your truck servicing costs into a predictable monthly payment (or upfront fee with Isuzu Essentials). You'll also be part of one of Australia's biggest dealer networks, so you can book a service at locations around the country. With the new Chain of Responsibility laws, proper servicing will protect your business. Lastly, service agreements come with Isuzu Care, Australia's most comprehensive truck customer care programme.

To find out more, see your nearest dealer or visit isuzu.com.au/care-support/service-agreements.

Ask your local Isuzu dealer about which service agreement is right for you.

Choosing the right Service Agreement for you!

With lots of great options available, it can be hard to know which service agreement is right for your business and truck.

Glenn Jones, the National Service Business Manager of Isuzu Australia Limited (IAL) explains the different types of service agreements, the purpose behind the packages and how they can assist with managing the whole-of-life cost of your truck.

For those who may not be familiar with the term, what is a service agreement?

Truck owners can often wonder what a service agreement is and how it is different from attending a regular scheduled service.

A service agreement is usually organised at the time of purchase for a new truck by your sales consultant but can also be purchased later on if you're looking to streamline costs and set up your truck servicing schedule. Essentially, it's a package that lays out set monthly payments that covers scheduled services, oils and lubricants, small accessories and parts replacements over time, building up to larger parts replacements given regular wear and tear.

Having the cost of servicing and future parts replacements packaged up monthly means there are no surprises 'on the day' and can make budgeting easier for the business.

Where is the best place to start in choosing an agreement?

Doing a bit of online research is a great place to start. I suggest having a look at what OEMs have on offer before you go in for a test drive, so you can go into the buying process with a clear understanding of the benefits and packages available. You can then ask for further information at the dealership.

Most OEMs have information on service agreements on their website. Isuzu Trucks has a dedicated page breaking down the different types of service agreements and which trucks they're suitable for.

Are there other benefits to a service agreement, other than streamlining costs?

As any business owner knows, equipment downtime can be a real killer—and a service agreement can help you manage this issue for your fleet. It's important to think about it as a long-term investment. The care you put into maintaining your fleet will be returned to your business over the months and years and help to manage the whole-of-life cost.

The dealership will use genuine OEM parts when it comes to replacement under a service agreement, and this can be another way of saving money in the long run. Genuine parts are engineered and tested specifically for the truck model, leading to better longevity and performance.

There are options for roadside assist programs and overnight servicing which can help to reduce your downtime and even extras like dealership staff collecting your trucks when it's time for their scheduled service.

How do you decide which service agreement is the right one?

The dealership can inform you of the costs involved and draw up a service agreement that will suit your requirements—you can think of it as having health insurance for your truck fleet. A higher level of cover can provide extra peace of mind, but it might not suit everyone.

Isuzu Trucks offers four different service agreements which can be tailored to suit a customer's business and operating needs.

For newer trucks, we have three packages **Isuzu Total, Isuzu Essentials Plus and Isuzu Essentials:**

Isuzu Total – This service agreement is the most comprehensive and is offered on newly purchased Isuzu trucks. It covers a broad range of genuine replacement parts such as filters, light globes, wiper blades, fan belts, engine components, brake and transmission components, along with lubricants, oils, and more.

In addition, Isuzu Total offers extended add-on options with Extended Care, Extended Assist and after-hours servicing.

Isuzu Essentials – This service agreement is for customers with new trucks and is packaged with an upfront payment that covers the truck's first three regular services up to 36 months, or 60,000 km service (whichever comes first). It covers filters and lubricants, washer fluids, valve adjustments, consumables and labour. It's a great option for streamlining costs when you may not require all the add-ons and extras of Isuzu Total.

Isuzu Essentials Plus – The Essentials Plus package includes everything covered in Isuzu Essentials along with additional items such as filter replacement, lubricants, wiper blades, light globes, fuses and fan belts, on a monthly payment plan. This service agreement opens up further options for genuine parts replacement if desired.

Is there a service agreement available for older trucks?

Isuzu Trucks offers Isuzu Heritage which is specifically for trucks that are between three years and fifteen years old or that have clocked over 100,000 km. This agreement includes scheduled services, oils and lubricants and replacement parts that come under our Isuzu Best Value Parts range, which suits older Isuzu truck models.

DEALER NETWORK

Isuzu has Australia's biggest dealer network. If you book into any Isuzu Service Centre nationwide, they'll have access to your truck's comprehensive service history

ISUZU CARE

Australia's most comprehensive truck customer care programme, Isuzu Care has a team of service specialists to ensure that owning your Isuzu is a great experience. To contact them, just freecall 1800 035 640.

STREAMLINED PROCESS

Maintaining your trucks under a Priority Service Agreement is quick and easy. With prearranged payments, you won't have to worry about the hassle of arranging finances before your drivers drop off and pick up trucks on the day of the service.

CHAIN OF RESPONSIBILITY & NHVR

With a Priority Service Agreement, you're clearly demonstrating that you've pre-planned your fleet maintenance and have put established procedures in place. That means establishing NHVR (National Heavy Vehicle Regulator) fleet maintenance requirements couldn't be easier.

ONLY THE BEST SERVICE AND PARTS

Using a combination of the latest diagnostic software and Isuzu-approved parts, our qualified Isuzu technicians will keep your truck in tip-top condition.

REDUCE TOTAL COST OF OWNERSHIP

Better servicing helps reduce unforeseen overheads and results in more reliable, fuel-efficient trucks. And that means less downtime and lower total cost of ownership.

FACTORY TRAINED TECHNICIANS

Why would you trust your Isuzu to anyone but an Isuzu-trained technician? With meticulous training tailored specifically to Isuzu trucks, our team carries out servicing and repairs to manufacturer-documented standards (and that means the highest level possible!).

RESALE VALUE

Thanks to the comprehensive service history you receive from Isuzu, you'll always get the best price for your truck when the time comes for an upgrade.

Isuzu Trucks Dealer Network

Isuzu has the largest truck dealer network in the country, with all 73 locations providing the highest quality Genuine Parts, backed by industry-leading support and warranty. This all means reduced downtime for our customers, freeing them up to focus on the important stuff. And when the parts are fitted by an authorised Isuzu technician, you'll be helping extend the working life of your truck and getting peace-of-mind that money just can't buy. Because reliability is everything!

Find your nearest dealer by simply scanning the QR code.
